Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Responsive Design, Bootstrap, jQuery

Backend: Laravel, PHP, Node.js, MVC Architecture, API Integration, Authentication, Authorization, CRUD Operations, Blade Templates

Database: MySQL, Database Design

Tools: Git, GitHub, Docker, npm, Webpack, Vite, WSL2, VS Code, XAMPP

Additional: Python, Java, VB.NET

PROFESSIONAL EXPERIENCE

Caritas Don Bosco School (Education Industry)

Biñan, Laguna

IT Assistant/Programmer

Apr 2025 – Jul 2026

- Developed and deployed an inventory and attendance management system using **PHP, Laravel, and MySQL**, improving day-to-day tracking accuracy and reducing manual record-keeping.
- Built and maintained a school-wide web application using **JavaScript, HTML, CSS, PHP, and Laravel**, with responsive interfaces supporting desktop and mobile users.
- Collaborated with HR to gather requirements and translate business needs into technical solutions used regularly by **10+ staff members**.
- Developed an inventory management module that streamlined data organization and reduced manual entry by approximately **15 hours per week**.
- Implemented user-facing item request and borrowing functionality to improve administrative workflows and system usability.
- Diagnosed and resolved **35+ web application issues and bugs**, helping maintain reliable day-to-day system operations.
- Supported software and hardware issues across **80 computer units** in school computer and Mac labs.

PROJECTS

MIS Office Inventory (MISystem)

Jun 2025 – Jul 2026

PHP · Laravel · JavaScript · HTML5 · CSS3 · MySQL

- Developed a school administration system covering inventory organization, item borrowing, request encoding, and attendance management.
- Built responsive user interfaces for administrative workflows across desktop and mobile devices.
- Engineered an inventory module that reduced manual entry by approximately **15 hours weekly**.
- Implemented item-request and borrowing workflows to improve administrative efficiency.

Vehicle Parking System (BLSR)

2023

Java · VB.NET

- Developed a parking management system for slot organization and fee management.
- Implemented slot allocation and fee calculation logic based on parking duration and vehicle type.
